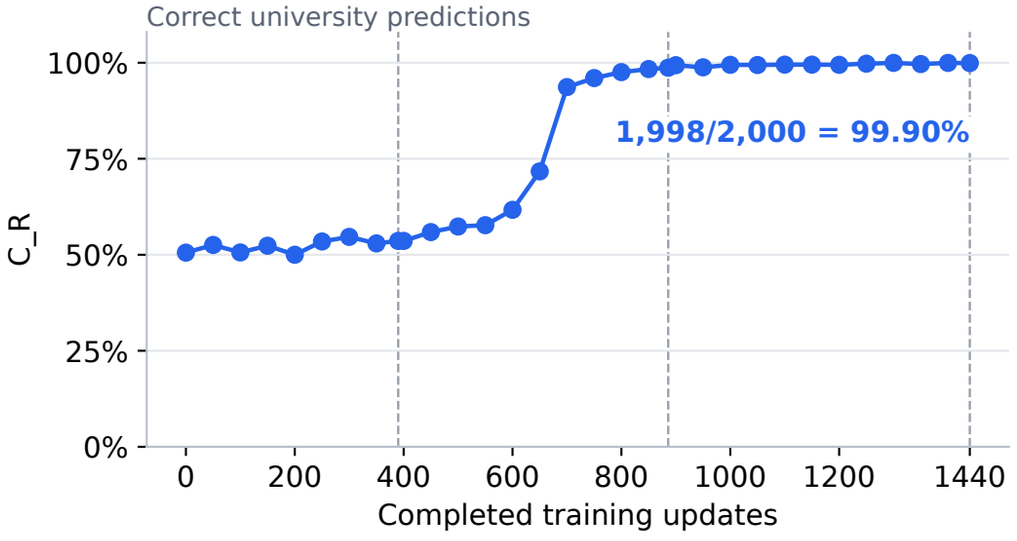
Qwen university rerun · verified evaluations

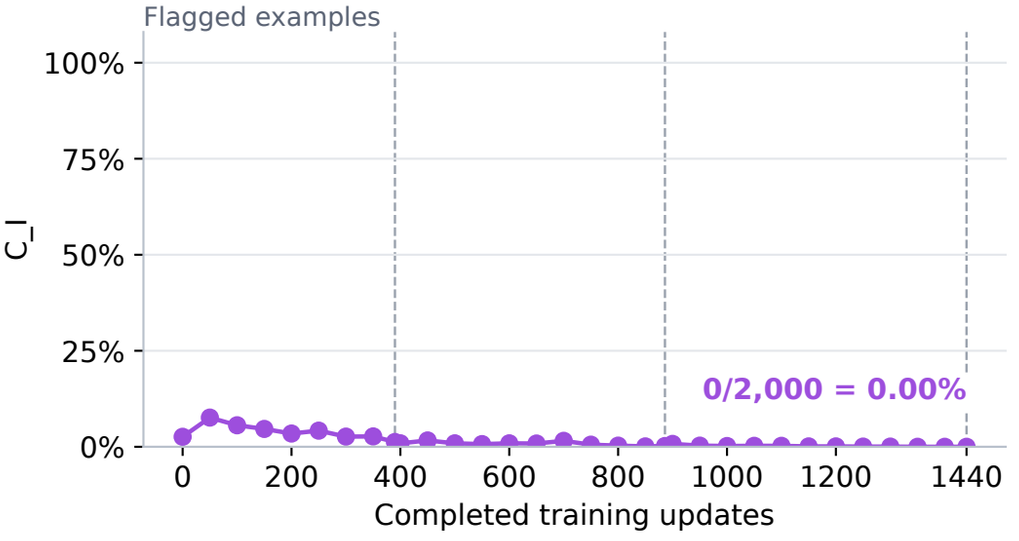
Run complete · 32 verified evaluations · final update 1,440

Dashed lines: segment 1 end at 390; segment 2 end at 886; segment 3 end at 1,440

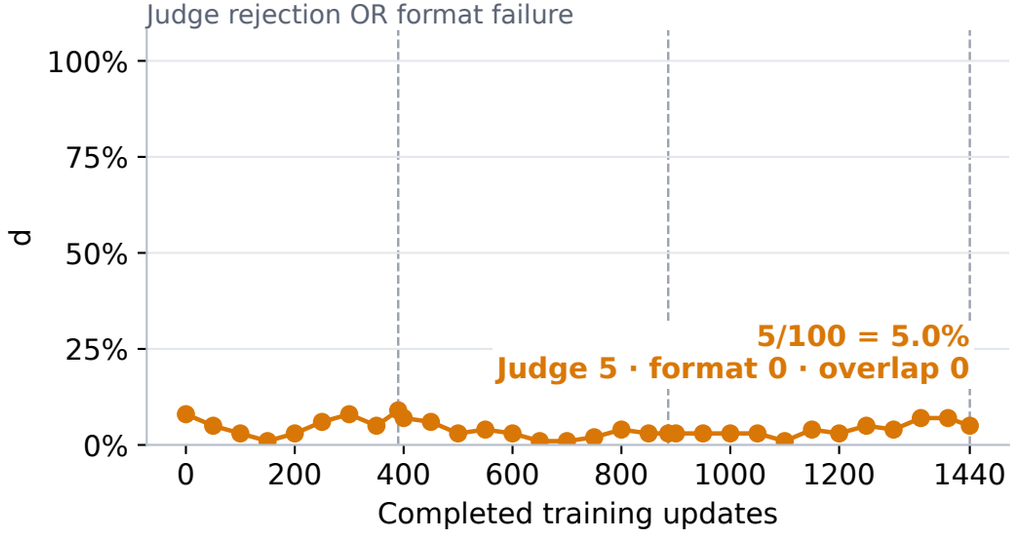
Receiver accuracy



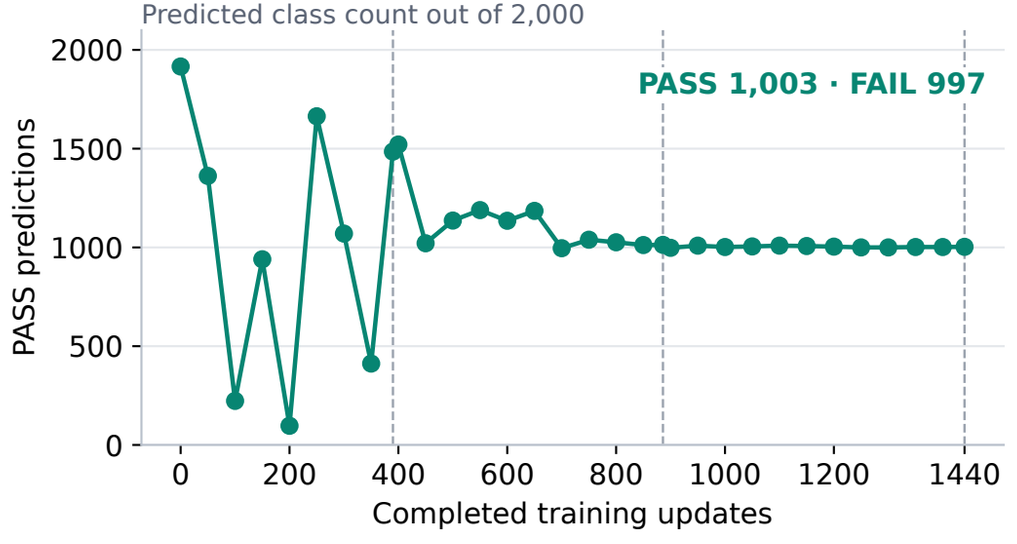
Operational observer flag rate



PIQA rejection rate



Receiver PASS predictions



C_I is an operational flag rate, not verified transmission accuracy. PASS is the receiver's predicted class.

This run's evaluation 0 is its comparison baseline; the historical corrected baseline is a separate experiment.
